

## ARE AFTER THE GOIN

Reported Doings of High Republican Officials.

## CAMPAIGN CASH NEEDED

FEDERAL EMPLOYEES SAID TO BE ASKED TO PUT UP.

It is asserted by a party who was approached that District Attorney Whittemore, United States Marshal Miller and National Committeeman Orange J. Salisbury have been constituted, or have constituted themselves a committee to solicit campaign contributions from government employees in Salt Lake. They are taking, according to this informant, the three principal places, the surveyor general's office, the land office and the postoffice with a fine-tooth comb.

It is presumed these gentlemen thoroughly understand that it is against the law to levy contributions for campaign purposes on federal officeholders. Very likely they realize that if they attempt to hold up small and large employees they are liable to a fine and perhaps imprisonment. Therefore they are going about their work in a different way.

## Would Appreciate Help.

"You are not compelled to give us anything to solicit the continuance of McKinley in office," they are saying, "but we would very much appreciate any voluntary contribution you can make to make us certain of a continuation of the prosperity you are enjoying and it would be right and proper to help us as far as your ability will permit."

This is the spiel, or something very like it, that Whittemore, Miller and Salisbury are said to be making. The victim appreciates the fact that things are liable to be made very uncomfortable for him if he doesn't submit to a little fat frying. Perhaps the man approached is a postoffice employee with a family he is trying to keep on a salary of \$75 or \$80 per month.

## Has a Hard Time.

He is having hard pickings to buy food and pay for the roof that shelters him on this amount of money. He has always had a hard time but this year it is especially difficult because the price of nearly everything he uses has gone up, from sugar to coal. Along comes the committee and asks him about a continuation of prosperity.

It must seem somewhat humorous to the \$80 man, but he has to listen and realize that he is obliged to chip in something, even if by doing so he deprives his family of another necessity. Messrs. Salisbury, Whittemore and Miller apparently do not desire to be misunderstood. They are distinctly not compelling anybody in the service of the government to put up a single, solitary, five-cent piece.

## Using Soft Words.

They are not saying to these gentlemen: "You must contribute or you will forfeit your positions." Soft words are used, and the man is told that within the velvet glove lies the same. A good many dollars have flowed into Chairman Callister's exchequer by these sources, it is said.

The cash will be distributed among the heeled, who will attempt to control their districts for McKinley and Davenport. Their idea was that if Lawrence were in the ticket his father would not run on the Democratic ticket or as a straight Populist.

During the noon recess the ticket was counted by the Republican committee, the Republicans hope to win the election in Utah.

## WORKED A CUTE TRICK.

How Sears and Daveler Were Beaten in Republican Convention.

The bitterness grows among Republicans as to the way in which the three candidates for the state senate were chosen in the county convention last week. September 10, Sears and J. S. Daveler went into the convention with all odds the strongest men for the nominations. George M. Cannon was supposed to be a third man, but he was known to the men themselves, and there was a strong faction who were determined to run Lawrence in the ticket. The idea was that if Lawrence were in the ticket his father would not run on the Democratic ticket or as a straight Populist.

During the noon recess the ticket was counted by the Republican committee, the Republicans hope to win the election in Utah.

These were held back until the proper time and then the convention was closed with them. The radical rooters for Daveler found the ticket with his name on and voted it; the Sears radicals did the same. When the ballot was counted it was found that Lawrence and Lawrence had won easily, while the strength of Sears and Daveler had been split almost in the middle, and both were beaten.

In the last rounds it is said that Daveler was beaten really through the influence of the railroads. He was obstinate to them while Sherman was not, and this influence, added to the other factors at work against the labor man, left him high and dry on the fence while the procession passed along. The feeling engendered by this fight is bitter.

## COUNTY COMMITTEE TO MEET.

Democrats Will Organize, Elect Officers and Transact Business.

The new Democratic county committee and the county candidates will meet at state headquarters in the Progress building at 2 o'clock on Thursday afternoon of this week for the purpose of organizing, electing officers and laying plans for the campaign.

The new county committee is composed of the following men: For the First Precinct of this city, W. F. Gray and C. G. Johnson; for the Second, T. C. Lewis, John Shea and Albert Fisher; for the Third, James Forsythe, Arthur F. Barnes and Robert S. Slesinger; for the Fourth, T. F. Thomas, James Sabine and James Maxwell; for the Fifth, John Arup, David L. Levy and Bert Hallman; for the outside districts, Ward of Sandy, Mrs. Jennie B. Whipple of Farmer's ward, and George H. Brigham, J. R. Rawlins of Draper.

This will be one of the most important meetings of the entire campaign, and it is earnestly desired that every member of the committee and every candidate be present.

## Provo Republicans Kick.

(Special Correspondence.) Provo, Sept. 17.—A large number of Republicans of Provo are very much dissatisfied with the county Republican ticket nominated at American Fork Saturday. They claim that a bold attempt was made to get as many bishops on the ticket as possible, and succeeded in landing a number of them.

## No Horses For Teddy.

(Special Correspondence.) Brigham City, Utah, Sept. 17.—The Democratic central committee of Box Elder county has opened headquarters

in the Knudson block with nicely furnished rooms to be used by the committee and Democrats who may drop in from outlying districts.

Chairman Blackburn was waited upon by a number of Republicans with the request that he fix a day for the county convention; as usual they are afraid to go ahead and name their ticket before the Democrats, but no action will be taken until the central committee will meet.

Governor Roosevelt, who will be in Brigham City on the 20th of September, will be disappointed in not being met by a squad of horsemen at the depot. The committee on reception asked that Hailed precinct furnished the horses for the occasion, but an answer from a leading Republican of Corinne showed that there are only two available horses in Corinne City for that occasion. Unless the Democrats will help them out of this difficulty the parade will be an utter failure.

## Political Notes.

Senator A. Owen Smoot of Provo was a visitor at Democratic headquarters at Hailed precinct furnished the horses for the occasion, but an answer from a leading Republican of Corinne showed that there are only two available horses in Corinne City for that occasion. Unless the Democrats will help them out of this difficulty the parade will be an utter failure.

Judge Botkin spent yesterday afternoon at Republican state headquarters. He has recovered the vote he lost in the county, but is still suffering with a heavy headache. He left for Richfield with W. G. Van Horn of the Salt Lake Republican legislative ticket to speak at Republican state headquarters. He has recovered the vote he lost in the county, but is still suffering with a heavy headache. He left for Richfield with W. G. Van Horn of the Salt Lake Republican legislative ticket to speak at Republican state headquarters.

Mrs. Joseph M. Cohen has received an invitation from some Democratic women to come to some dinner and help in the organization of a woman's Democratic club. Mrs. Cohen has declined the invitation, saying she is too busy to respond to the call whenever she is needed. It is likely that she will go to Logan the latter part of the week.

Hon. A. W. G. Horn, president of the Ogden Hot Air association and general secretary of the "Young Men's High Air Rooting League," visited Democratic headquarters yesterday. Jovial Judge Horn feels sure that the state is a victim of the "everybody else" on the Democratic ticket.

R. B. Thurman returned yesterday from a trip to Burien and established himself as assistant to Chairman Burton and Secretary Cohen. Mr. Thurman will spend most of his time at headquarters during the balance of the campaign.

Professor Porter, the Democratic candidate for state superintendent of public instruction, was in the city yesterday making arrangements for a trip to the north today on a two-day electioneering tour. He will be joined in Rich county by I. C. Thoresen and John G. M. Barnes.

The combine that worked against Arthur Brown in the Republican county convention, now conceding him the one member of the thirteen in the legislative ticket. This is F. E. McGurkin, and they state that he slipped in by good luck than good management.

I. C. Thoresen of Cache county was in the city yesterday and left with Senator Rawlins on an early train this morning to begin his campaigning in Rich county.

Judge Henderson will address the Democrats of the Third precinct in the city tomorrow night at the assembly rooms next Thursday evening.

Hon. Frank J. Cannon left for Idaho yesterday and will spend the balance of the week campaigning in that state in the interest of his friend and former colleague, the Hon. Fred T. Dubois.

Fisher S. Harris left yesterday morning for his trip through Uintah, Carbon and Emery counties. He will be accompanied on his trip by Judge Whitehead of Provo and on a part of the trip by Fred Erickson of Sanpete county. Mr. Harris will be gone from the city for two weeks or more.

## PUBLIC WORKS BOARD MEETS

CONSIDERATION OF PENALTIES FOR DELAY ON CONTRACTS.

Attention of the Council to Be Called to Care and Improvement of City Property.

The board of public works held a business-like session last evening without manifesting any feeling of resentment toward any one. Engineer Kelly was not present, nor was he expected, but there were several communications from him on matters relating to public work contracts, all couched in respectful, dignified language.

Besides Chairman Dooly, there were present Messrs. Clawson, Fabian, Farnsworth and Kahn.

Among the claims approved for payment on order of the city council, the largest was the city engineer's estimate in favor of A. G. Glagolev for construction of sewer laterals. The sum was for the sum of \$1,515.34, less \$260 for delay in completing the contract, but the board decided to waive the penalty because it was believed the contractor had used due diligence in prosecuting the work.

A communication received from the Excelsior Wood Pipe company contractor for the construction of the distributing reservoir at the head of First South street, requesting that the city council delay in paying the sum of \$25,000 for the work be not enforced from Aug. 1 till Sept. 15, the date of completion, for the reason that the hindrances were largely due to the failure in carrying out the pipe connections supplied by P. J. Moran, the other contractor. The matter was referred to the city engineer for report.

On Mr. Clawson's suggestion it was decided to call the council's attention to the condition of the city of the man hole covers on the gravity sewer, the sewer laterals and along the Parley's conduit painted in order to preserve them.

Relative to the necessity of having a new pavement laid in front of the fire and police station, Chairman Dooly reported that he had called the city engineer's attention to the propriety of urging action by the council, but the chief had reminded the chairman that he was still having his annual vacation and until it is ended he would not be bothered.

It was decided to direct the council's attention to the advisability of having the old Sixteenth ward rock meeting house converted into a work shop and stable for city teams at an estimated cost of \$1,000.

Action was deferred on the claim of Silver Brothers' iron works for castings made for connection with Parley's conduit, which were stolen after alleged delivery and before receipt was given by an agent of the city.

**DENTAL BOARD SUED.**  
Mandamus Against State Board of Dental Examiners.

On application of Rose Ellen Bywater of Brigham City, Judge Norrell yesterday ordered the board for dental licensure to issue a writ of mandamus, returnable on Oct. 6, to issue against W. H. Bucher, J. W. Thatcher, A. S. Chapman, J. F. Snedden and G. E. Ellerbeck of the state board of dental examiners, requiring defendants to grant the petitioner a license to practice dentistry or show cause why the license should not be issued.

In her petition the applicant alleges that last April she underwent examination before the board for dental licensure and answered all questions satisfactorily enough to entitle her to a certificate, but the secretary of the board has, it is charged, insolently refused her by letter that she failed in her examination and that she would be prosecuted if she continued to practice dentistry. It is also alleged that she has been denied the privilege of inspecting the board's record of proceedings in her case.

**AGAINST THE STATE.**  
Decision by Norrell in Case of Musser vs. State Auditor.

Judge Norrell yesterday rendered a decision on demurrer in the case of A. Milton Musser against State Auditor Richards, in which the court directed a peremptory writ of mandamus to issue, as prayed for, requiring the auditor to draw a warrant on the state treasury to the order of petitioner in the sum of \$600.

This was the amount appropriated by the legislature to Musser for a stipend as him for experimenting in fish culture in the public waters, but the auditor refused to draw the warrant because the claim had not been approved by the state board of examiners. The defense will seek a ruling from the supreme court on the question.

Comparing the new guns with the ones taken away in 1898, it might be said that there are a number of improvements, principally that of smokeless powder.

The new guns for the battery are 1897 model, made in 1898; breech loading, size 3.2; steel rifles, made by the American Ordnance company for the American army and the first of their model to be issued, being Nos. 1, 2, 3 and 4.

These guns shoot percussion shells and time fuse shrapnel, using smokeless powder and showing nothing but vapor when the gun is discharged. They are sighted for 5,000 yards, but will throw a thirteen and one-half pound projectile five miles.

## EVANS &amp; ROGERS PAY UP

DECISION AGAINST THE STATE—DENTAL MANDAMUS.

Judge Norrell yesterday commenced the trial of several petty criminal cases, the first of which was that against Hank Riddle and Henry Wright, who with Frank Lyons, were charged with burglary, committed on March 13 of this year, when they broke into the barn of Frank H. Danis at West Jordan and stole a saddle and bridle. A jury was called and the two defendants named were placed on trial.

Assistant County Attorney Ray Van Cott prosecuted and James F. Smith and Will F. Wanless defended the accused, but the jury found them guilty of burglary.

Waiving time for sentence, Judge Norrell sentenced Riddle and Wright to serve a year each in the state prison, the sentence to run from the expiration of the eight-year terms they are serving now for grand larceny.

The charge of grand larceny, involving the stealing of the sum of \$1,000, on which they were convicted yesterday, was dismissed.

In the conclusion of the trial of Riddle and Wright, Frank Lyons' case was called for trial. Out of a special venire of six jurors only John E. Thomas and W. C. Squires were accepted and another venire was issued, returnable this morning, for the following: Joel H. Barlow, James Shaw, John Arnold, T. H. Latimer and Benjamin Canning.
